CASE LOAD SPECIFIC CAPACITY

Nuix's comprehensive eDiscovery solution, Nuix Discover, gives you the processing, analytics, review, and automation power you need to master the details of any legal matter, no matter how large, challenging, or complex. With Nuix Discover SaaS, you have scalable flexibility to meet your changing needs:

- > **On-demand** – Add capacity as needed. Once set up you have immediate availability, with the flexibility to initiate cases whenever you require. Cloud delivered SaaS so local installation isn't required.
- > **Self-service** – Our self-service platform allows for easy initiation of new cases. Key features include case setup, data loading, and search term reporting. Common casework can be executed without the need for external resources, saving you time and money.
- > **Clear costs** – No binding contracts or hidden costs. Full cost transparency – so that you can easily manage client billing by client, project, or cost center as required.

- > **Faster processing & review** – Nuix's intelligent automation capabilities allow legal teams to dramatically improve the speed and quality of document review while delivering profound time savings.
- > **Defensible** – in court. Seamlessly track and secure evidence, guaranteeing its integrity from collection to courtroom.

KEY FEATURES OF NUIX DISCOVER SAAS:

Nuix is a leading standard for regulators, law firms, and law enforcement. Nuix Discover SaaS is a premier document review platform offering a range of features including data import and processing, data enrichment, review enablement, case assessment, and production/export capabilities. Key features include:

- > **Get started Sooner** – Quickly ingest data and start reviewing in minutes—no load files, no exports, and a full portfolio of analytics and visualizations.
- > **Responsible AI** – Nuix's AI is transparent, specific and therefore defensible. Customers can train and tune the models with our no-code AI, so that the models are specific to your needs. With advanced analytics, you can gain valuable insights from case data and make informed decisions fast.
- > **Find facts faster** – Incorporate analytics into your everyday initial and linear review workflows to figure out what's going on and define your case strategy. Industry-best models for clustering, mapping, and graphing distill the whole case into easily understood 'a-ha' moments. Nuix Discover's machine learning capabilities mean every time you make a coding decision, your next review assignment is more relevant.

- > **Scale** – Nuix Discover is designed for scalability in data volumes and number of users. No matter how big or small the case, you can automate the way information is processed, organized, and presented to reduce operational costs and simplify hand-offs.
- > **Enhanced collaboration** – Enjoy seamless collaboration among legal teams, allowing multiple users to collaborate with a single window into case data. Facilitating work on documents simultaneously, improving workflow efficiency.
- > **Onboarding, Training and Role Certification** – Nuix provides onboarding training sessions and certification paths for various roles within a case, including reviewers, case managers, and portal admins. Gain expertise and maximize your efficiency on our platform.
